/* University of Birmingham */
/* Computer Science Society */

Sponsorship Proposal 2019/20

Computer Science Society (CSS) is the departmental society for Computer Science at the University of Birmingham. With over 180 members and a range of initiatives, we work closely with the School of Computer Science, our sponsors and the local and wider tech communities to provide our members with experience and skills that will be invaluable to them in their careers.

Some of the events and initiatives we run (or help to run) for our members are:

- **HackTheMidlands**, a 24-hour hackathon open not only to students but to anyone interested (aged 14+) with around 150 attendees last time.
- **The Women in Technology Conference**, hosted alongside WISE (Women in Science and Engineering) and oSTEM (Out in Science, Technology, Engineering and Maths) - a day-long conference focussed on empowering and equipping women in technology, to provide confidence and combat the gender imbalance in the field.
- **CSS Hardware Lab** - State of the art technology that we use to provide our members with hands-on experience of bleeding-edge technology such as Virtual Reality. Not only do we use the Hardware Lab for our members, we also use it to give back to the tech community by providing in-kind sponsorship for events such as hackathons, to enrich the experiences of attendees across the country.

As well as these, we run a variety of social and tech events across the academic year, including (but not limited to), seminars, talks, workshops, hackathon/conference trips, LAN parties, games nights and much more.

We would love to work with you in the coming year to deliver this, and none of this would be possible without you! So if you're interested in working with us to provide skills, insight, experience and confidence to our members (and more!), let us know! On the following page are the sponsorship tiers that we are offering this year.

	Bronze (£750)	Silver (£1500)	Gold (£2500)	Exclusive Partner (£Negotiable)
Logo on all society promotional material	✓	✓	✓	✓
